	COMOR-M-5	
COMMITTEE ON OVE	RHEAD RECONNAISSANCE	
Administration Building	Seeting Held in Room 214 Central Intelligence Agency Company 1960	
PRI	ESIDING	
	Q. Reber irman	
MEMB	ERS PRESENT	
Col. L. E. May, USAF Deputy Chairman Mr. M. Mitchell, OSD Col. T. L. Fisher, JCS Col. J. W. Boucher, OACSI	Cdr. H. D. Myles, ONI Col. J. W. Winterbottom, AFCIN NSA Mr. W. A. Tidwell, Jr., CIA	50
	TANTS PRESENT	
Lt. Col. W. C. Herrington, JCS		50
Mr. J. T. Hughes, OACSI Maj. G. S. Chapman, AFCIN Maj. S. J. Moran, AFCIN Mr. P. J. Nelson, AFCIN	Mr. A. C. Lundahl, CIA	50)
	Mr. F. A. Voigt, CIA	50 50
Approval of Minutes of the Last	Meeting	
1. The minutes of the approved.	e last meeting (COMOR-M-4) were	
was stamped ZEBUB when only t The Chairman stated that initiall	de by some of the fact that the minute he word was in the text of the minute. y the minute had not been so stamped, should be. Accordingly, a request	
		5
•		

had gone out to the recipients to so mark the copy. The Chairman noted the complications arising from the discussion in the COMOR of matters relevant to various security systems or indicators and that already to accommodate this he had issued for the same meeting a separate T and a T-KH minute. He stated that hereafter he would issue only one minute with proper indicators which would be inclusive of all matters discussed regardless of the security compartment in which they belong. He realized that this would make it somewhat awkward for the members in passing the minute to officials in the members' agencies with a "need-to-know" for some items but not for others. The minutes, however, were principally a record of action of concern to and for the convenience of the members in their relations with the Committee and the Chairman suggested that each member work out his own arrangements to insure that information from the business of the Committee was properly relayed to those with a "must know" and who, of course, are properly cleared and indoctrinated for the subject matter involved.

Downgrading and Release of T Materials on East European Satellites and Communist China (COMOR-D-22/1)

- 3. The Chairman reported on the discussion of the reference paper by the USIB on November 15th calling attention to the fact that the membership seemed tentatively, at least, agreed to the recommendations of the COMOR except that the State Department wished to have Tibet and photography on areas adjoining Tibet excluded from the paper because of the sensitivity of the area. It had been proposed at the USIB that the materials on Indochina be included and no objection was raised. The matter was left that Ambassador Cumming would discuss the matter of the photography in West China with the Department. The Ambassador requested that a map showing coverage which had been presented to the USIB be made available to him after the meeting. This the Chairman did and subsequently heard from the Ambassador that the Department wished to exclude the West China photography, but would be willing to include South China and Indochina.
- 4. The COMOR after further discussion of the matter could see no sufficient reason for exclusion of West China and reaffirmed that the argument set forth in the reference paper was likewise and clearly applicable to West China as to East China.

50X1

TOP SECRET

5. The COMOR considered also the date and strongly recommended that December 1959 be adopted.	
6. The COMOR requested the Chairman to amend the paper to reflect these views and re-submit the matter to the USIB (see COMOR-D-22/2).	
Suspect Missile Sites USSR (COMOR-D-21)	
7. It was agreed that the subject list should be taken into account by the COMOR in any future requirements action when its advice is needed and that it should be made available to photographic interpreter as a checklist in examining available photography. noted the inaccuracies which still existed in the paper. pared the paper from the submissions of the members and he requested that those interested in correcting the list meet with him in the Pentagon Annex 3, Room 207, at 0930, December 5.	
8. In the course of this discussion Colonel Winterbottom expressed the belief that these suspected sites when plotted on a map might be clustered in such a way as to affect our requirements guidance for future T-KH coverage and that it might be well now to make a re-examination of the highest priority TALENT list (COMOR-D-3) to reflect more adequately our attack on the missile site problem as well as to be more adaptable to satellite photography, the last list having been established with manned aircraft in mind. The Air Force offered to prepare a new highest list for consideration of the COMOR as a means of instituting the review.	

Downgrading	of Graphic Materials			
10.	The COMOR approved	the paper as	amended in para 4 a(4).	
	r issue a downgrading and of the classifications on the	d release par his subject a	ggestion of Colonel Herringto ber on the USSR which would s well as the USIB action	n

The members indicated that they would want to have an opportunity to make a technical evaluation of this possibility. 16. Colonel Fisher requested that the matter be held in abeyance pending an examination by the JCS of the military capabilities to meet this requirement. This matter will be returned to the COMOR agenda at the initiative of the JCS. Post-Operational Information on T-KH 17. Colonel Winterbottom requested that procedure be established for informing the Air Force of the success or failure, and if failure, reason therefore, immediately after T-KH missions. The JCS indicated it had a similar need. The Army and Navy felt that they had no need for such immediate information. 18. The Chairman stated that he would pass this request on to Colonel Beerli, the Chief/DPD, and that the Air Force and the JCS might expect to hear from him. T-KH Slots for Weather Central 19. Colonel Winterbottom referred to a request submitted some time ago for a number of T-KH billets for Weather Central necessary for its support of T-KH operations. replied that Operations did not consider the support from Weather Central to require more than the billets already provided and that billets for other purposes would not be considered T-KH Operations responsibility. In stated that a memorandum to this effect would be provided to the Air Force as requested by Colonel Winterbottom. Other T-KH Collection Capabilities 20. Colonel Winterbottom inquired whether there were other types of collection capabilities than photography in the T-KH capability. In answered that he knew of none, but he would inquire whether there had been any used. The Chairman stated that he knew of none and		50
